

SYNCHRONISED POLYPROPYLENE WET & DRY VACUUM CLEANER 25 L

VACUUM CLEANER

- Large filter surface of 8600 cm², automatic pulse filter cleaning.
- High performance motor which brings out big volumetric flow and great permanent suction power.
- Filter indicator light.
- Extremely robust and impact-resistant plastic tank.
- Double flow motor for optimal cooling. Two separate air circuits for cooling and suction.
- Water level detectors and switch off by probes.
- Détecteurs du niveau de leau et arrêt par palpeurs.

Two class m polyester filter cassettes
